

File Handling in C++

File "A file is a logical collection of records where each record consists of a number of items known as fields". The records in a file can be arranged in the following three ways: • Ascending/Descending order: The records in the file can be arranged according to ascending or descending order of a key field..

...تسا هدش هیت دیما نابز تیاس بیطست هما نخسای نیا هداقتسا ای بیک هنگ ره.
