Weboperating system and software applications to define file system behavior. How are File Attributes Used? File attributes are pieces of information associated with every file and directory that includes additional data about the file itself or its contents. They can exist in only one of two states – Set or Cleared; similar to an On or Off state.

## What is File? - Chaudhary Charan Singh University

WebFile is a collection of records  
related to each other. The file size  
is limited by the size of memory and  
storage medium. There are two  
important features of file: 1. File  
Activity 2. File Volatility File  
activity specifies percent of actual  
records which proceed in a single  
run. File volatility addresses the  
properties of record changes. It  
helps to increase the efficiency of ...
